

Hackathon Assignment

Title: AI-Powered Campus Assistant

Assigned Date: 23 June 2026

Deadline: 30 June 2026, 11:59 PM

Objective

Build a prototype AI assistant that helps students access academic information, schedules, and campus resources through a conversational interface.

Requirements

1. Create a working prototype.
2. Implement user authentication.
3. Integrate an AI chatbot interface.
4. Store user data securely.
5. Provide a short demo video (3–5 minutes).
6. Submit source code and documentation.

Deliverables

- Source Code Repository
- Project Documentation (PDF)
- Presentation Slides
- Demo Video Link

Evaluation Criteria

Innovation (25%), Technical Implementation (30%), User Experience (20%), Scalability (15%), Presentation (10%)

Submission Instructions

Upload all deliverables to the hackathon portal before the deadline. Late submissions may receive penalties or disqualification.
